GUARANTEE—

We guarantee all dahlia tubers are true to name and provided with at least one good "eye," but unless tubers are returned to us *immediately*, we cannot undertake to replace, as we are not responsible for failure due to damage by insect pests, faulty cultivation, rough handling, etc.

NOTE.—We are pleased to announce that owing to our increased stock, we are now able to offer the older varieties of Dahlia Tubers at greatly reduced prices, but we are no longer listing them. We would, however, advise our customers to book their orders for novelties early, as some varieties are scarce. Our collection is absolutely unique in this country as the innumerable First Prizes we have gained will testify, and our blooms wherever exhibited have created an immense sensation. Special attention is drawn to our **WAVERDALE NOVELTIES**, raised by us and unobtainable elsewhere.
